

TECHNICAL DATA

Specification Applied : ANSI C29.9.1971

<i>Characteristics</i>	<i>Rating</i>
1. Leakage distance (mm)	394
2. Mechanical Values:	
- Cantilever strength (lb)	2000
- Tensile strength (lb)	8500
- Torsional strength (in.lb)	7000
- Compression strength (lb)	10000
- Tension proof load (lb)	1250
3. Electrical values:	
- Critical impulse flashover, Positive(kV)	125
- Low-frequency wet withstand (kV)	45
- Impulse withstand (kV)	110
4. Weight (kg)	8.5
5. The enamel is light gray	
6 Identification marking
